No worries Joe I am pretty heavily subscribed at the moment as well. I will do some follow up with Scott and Larry and I do think it would be worth discussing with Gerald as well. Perhaps when I am back to my substantive position in March I will take a crack at it. My initial conversations with Scott suggest that he would be supportive of the changes we are looking for, not sure about Larry so I will work on him ; ). I'll get back to you both after I have spoken with both Scott and Larry again and hopefully garner their support.

Hi Anna,

I am triple booked on meetings for the remainder of the week and trying to participate remotely as possible – so this week is a no go.

Would be happy to have a chat with you and Sherry and anyone else you think should be involved about what you folks are looking for – would like Gerald Fillatre involved in such a discussion –

Joe

Hi Folks, I was speaking to Scott last week and he informed me that you are working on some possible updates to the NWT Reg.s? I am hoping that RM can be brought into the conversation as there are a number of items that need to be addressed from our perspective. I would appreciate it if one of you could please bring me up to speed/pass on what is being considered to ensure that our concerns are being addressed.

**Cheers,  
Anna**

Hi, Anna,

This is a Parliamentary process and there is no defined timeline for it.

If there are other changes to the NWT Fishery Regs that DFO requires, please first ensure that Scott/Larry are in support of the changes. We can then develop a regulatory proposal and submit it to the Legislative and Regulatory Affairs Committee.

Keep in mind that the usual regulatory amendment process is a 12-18 month process also.

I've attached the email I circulated regarding new regulatory proposals. I would be happy to meet with you and support you in completing a proposal once Scott and/or Larry confirm their support. Proposals are submitted to Legislative and Regulatory Affairs (deadline for me to respond is Feb. 6 COB), considered and discussed at the Legislative and Regulatory Affairs Committee and approved via the Legislative Review Management Committee.

Thanks,  
Sheri

Legislative and Regulatory Affairs. I've let Ramzi Yonis know this will be coming. That's the extent of LRA involvement to date.

Comme je l'ai mentionné lors de notre réunion du CALR du mois de [REDACTED] les délais d'exécution pour cette proposition sont très serrés. Le but est de permettre au MPO de s'engager dans ce processus chaque année, de sorte que les échéanciers seront plus souples dans les années à venir.

Si vous n'êtes pas la personne qui doit prendre part à cette initiative de réglementation, veuillez me faire parvenir le nom d'une autre personne-ressource.

Merci
